

COM320 TryHackMe Lab – Windows Fundamentals 3

Windows is the most popular operating system, used by both individuals and corporate environments all around the world. This module will get you comfortable using some of the key Windows features (in a safe environment), including user account permissions, resource management and monitoring, registry access and security controls.

Instructions

Visit <https://tryhackme.com/room/windowsfundamentals3xzx> and complete Windows Fundamentals 3.

Note: There is an hour limit timeout for free accounts, but this is sufficient for each lab. If you need more time, then simply register for a second free account with a different email.

Windows Fundamentals 3

1. Complete the following:
